

Participants during the 36th Singapore Bird Race held on 5 and 6 December 2020, jointly organised by Mapletree, BirdLife International and the Nature Society (Singapore).

MOVING TOWARDS A SUSTAINABLE FUTURE

Mapletree believes in the importance of integrating sustainability into its business value chain and operations. The Group seeks to achieve positive long-term outcomes for the people and communities in the markets it operates in, as well as to minimise the environmental impact of its business. Mapletree supports initiatives that align with the four key pillars of its Corporate Social Responsibility (CSR) programme – the arts, education, environment and healthcare. In Financial Year 2020/2021, Mapletree committed approximately S\$3.7 million to various CSR causes.

ENVIRONMENTAL SUSTAINABILITY

Environmental conservation has long been a priority for Mapletree, given the far-reaching and adverse impacts of climate change. Throughout the years, the Group has rolled out numerous initiatives to improve the energy and water efficiency of its major commercial assets.

SOCIAL SUSTAINABILITY

Recognising that a high-performing company results from employees living up to their potential and creating value, Mapletree provides a work environment that not only enables employees to grow but also safeguards their health and safety. In addition, the Group is committed to long-term partnerships with stakeholders and beneficiaries for sustained outcomes that strengthen society.

ECONOMIC SUSTAINABILITY

By executing a proven business strategy well that combines real estate development, investment, capital and property management, Mapletree has generated consistent and good returns to its stakeholders, and established a track record for building award-winning development projects across various real estate classes and geographies.
